

**Table D-19. Number of employed 1995 and 1996 science and engineering bachelor's degree recipients, by sector of employment and work-related training: April 1997**

Sector of employment	Total employed	Work-related training <sup>1</sup>			
		Management training	Training in occupational field	General professional training	Other training
Total.....	605,900	94,700	331,400	87,000	35,200
Private industry and business (non-educational)					
Private, for-profit company <sup>2</sup> .....	367,200	61,700	196,300	55,000	18,100
Nonprofit organization.....	39,000	5,600	26,700	5,100	4,400
Self-employed.....	12,600	S	4,600	S	S
Educational institution					
4-year college and university <sup>3</sup> .....	72,900	5,800	29,200	6,600	3,100
Other educational <sup>4</sup> .....	55,400	6,000	34,700	6,900	3,800
Government					
Federal Government.....	21,600	6,500	13,500	5,000	1,600
State or local government.....	37,300	7,800	26,400	7,300	4,200

<sup>1</sup> Respondents may report two or more types of work-related training.

<sup>2</sup> Persons reporting they were self-employed, but in an incorporated business, are classified as "private, for-profit."

<sup>3</sup> Includes university-affiliated medical schools or research organizations.

<sup>4</sup> Includes elementary, middle, secondary, and less than 4-year colleges or other educational institutions.

**KEY:** S = Data with weighted values less than 100 or unweighted sample sizes less than 20 are suppressed for reasons of data reliability.

**NOTES:** Details may not add to totals because of rounding.

These estimates on recent college graduates are obtained from a sample survey of individuals whose most recent bachelor's or master's degree is in a science or engineering field and may differ from degree counts presented in other SRS publications.
